

## Read Me File for Navy Transgender Service Members Policy Training

- Please make every effort to thoroughly prepare for your session to include a complete understanding of the scenarios, their background and talking points as detailed in the “DoD Transgender Service in the U.S. Military: An Implementation Handbook.” The scenarios themselves are located as follows:
  - Scenario 2: Physical Standards – Page 49
  - Scenario 11: Use of Shower Facilities – Page 60
  - Scenario 12: Urinalysis – Page 61
- Also review the Frequently Asked Questions so you are prepared to address questions that have already been researched and addressed via medical and legal experts. The FAQs are in Annex A beginning on page 36.

- 
- For optimal performance, **download the entire contents of the disk** onto the desktop of your presentation computer. If you try to run it from the disk you may experience load and run time problems due to the size and component loads.
  - In most cases, when you launch the “startLesson” file you will need to select the “Allow blocked content” box when asked at the bottom of the screen:

Internet Explorer restricted this webpage from running scripts or ActiveX controls.

- When loading the lesson you may experience a “constant loading issue” due to recent NMCI patches. The resolution is as follows:

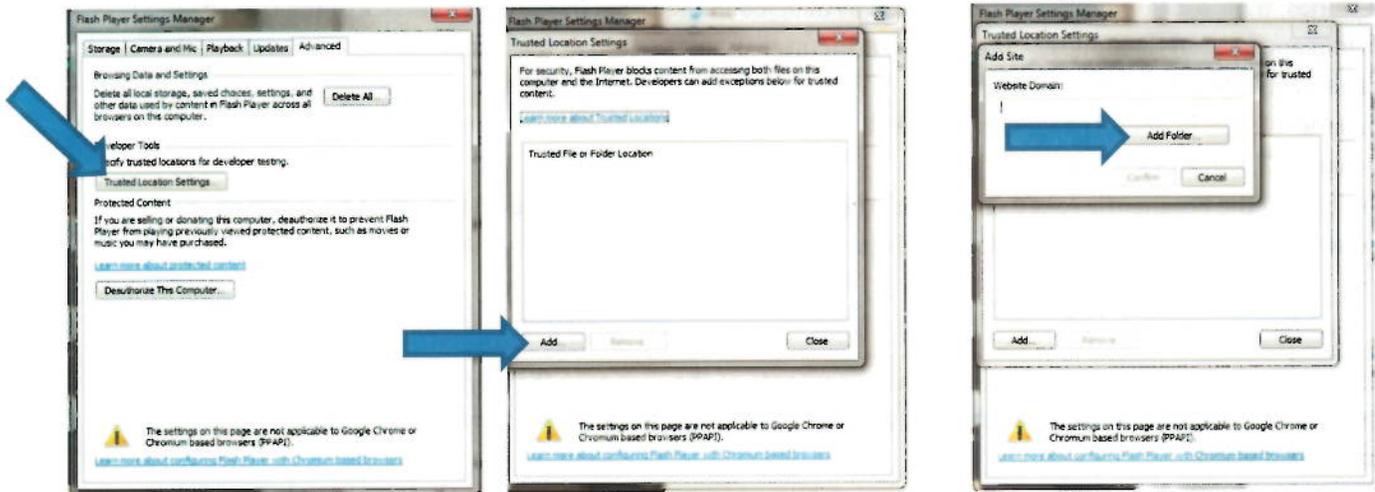

Right click on the training screen and select “Global Settings” for the Flash Player Setting Manager

Click the “Advanced” tab on the far right on the top.

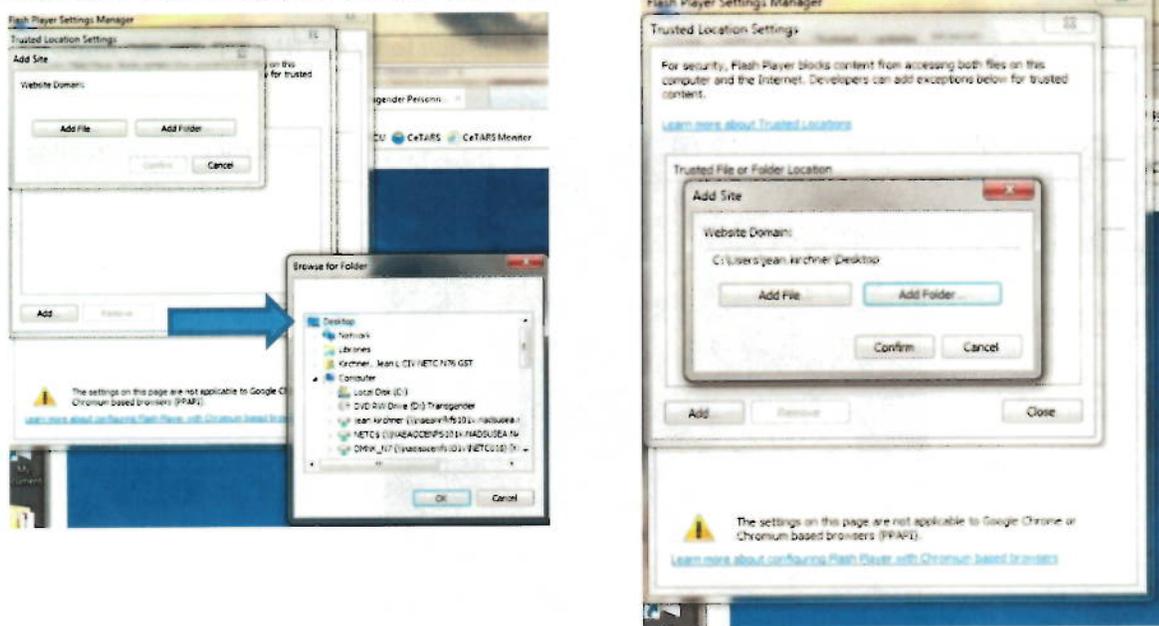

Select "Trusted Location Settings"

Select "Add"; click "Add Folder" and locate folder on the desktop and confirm.

In the "Add Site" window, select "Add Folder" - this will bring up a "Browse for Folder" pop-up window.

Select DESKTOP from the pop-up window and "OK"

Once you have the domain selected in "Add Site" window, select "Confirm"

Click "Close" on the dialog box; "X" out of the Flash Player Setting Manager

Refresh your lesson.
